The Golden Standard – Show the Standard for Goldens and explain why this standard exists.

Grooming Goldens - Provide demonstrations on grooming and its benefits.

Goldens in the Field - Demonstrate various levels of field training.

Goldens in Agility - Demonstrate various levels of agility training

Goldens in Obedience - Demonstrate various levels of obedience training.

Goldens in Tracking - Demonstrate tracking and its various levels of training.

If you would be interested in helping with these or other aspects, please e-mail Lisa Pace at lisa@rescueagolden.com

Texas Department of Health

NEWS RELEASE

February 27, 2003

Rabies Vaccination Frequency Changed

The Texas Board of Health today approved rules that will permit dogs and cats to be vaccinated against rabies every three years instead of annually.

Under the new requirements, dogs and cats should be vaccinated at 4 months of age, receive a booster vaccination 12 months later and every three years thereafter. Pet owners and their veterinarians may choose more frequent vaccinations.

TDH officials stressed that the change from annual to triennial does not lessen the importance of having pets vaccinated against rabies.

The new statewide rules become effective next month.
